Career Objective

Passionate undergraduate ready to learn new skills, adaptable to fast-paced environments, through teamwork and efficient problem solving. Seeking new opportunities to implement academic skills effectively.

Education

Global Academy of Technology, Bangalore Bachelor of Engineering in Information Science and Engineering (4th Year)	2023 – Present
RNS Composite PU College, Bangalore Pre-University Course (PUC) — 90%	2021 – 2023
RNS Vidyaniketan, Bangalore ICSE Board — 92%	Up to 2021

Technical Skills

Programming Languages: C, Java, Python (Basic), HTML, SQL (Basic)
Libraries: Pandas, NumPy, Seaborn
Tools: Tableau, Jupyter Notebook, Git, GitHub, VS Code
Frameworks: React.js, Node.js, Tailwind CSS, Supabase
Soft Skills: Team Player, Good Communication, Adaptability, Problem Solving

Experience

1M1B Green Skills Internship	Green Skills Intern
- Developed a Smart Water Audit for Campus by simulating and analyzing water consumption data using Python, Pandas, NumPy, Seaborn, and Jupyter Notebook. - Built an interactive Tableau dashboard to visualize water usage, wastage patterns, and sustainability metrics, enabling data-driven recommendations for campus water conservation. - Applied ESG and Design Thinking methodologies throughout the project, demonstrating the potential to reduce water wastage by 7,000+ liters per month through simulated analysis. Technologies: Python, Pandas, NumPy, Seaborn, Jupyter Notebook, Tableau	

Projects and Activities

ResNet — Research Collaboration Platform

- Designed and developed a scalable platform for uploading, reviewing, and sharing research papers securely between authenticated users.
- Implemented role-based dashboards for professors and students with integrated commenting, feedback, and discussion features improving academic communication efficiency.
- Added secure document storage, version tracking, and cloud-based access using Supabase and Node.js backend.
- Developed an intuitive front-end using React.js and TailwindCSS with dynamic routing and responsive layouts, enhancing accessibility across devices.
- Deployed and maintained the project on Vercel with continuous integration workflows ensuring smooth updates and performance monitoring.

Interests

Technology, Sustainable Development, Programming, Team Projects
